### **DETAILED ACTION**

This Action is responsive to Applicant's amendment submitted on September 16, 2004 wherein claims 1-20 are pending.

## **Priority**

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

# Information Disclosure Statement)

The information disclosure statement (IDS) submitted on 9-16-04 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the IDS is being considered by the examiner.

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William A. Kinnaman Jr. on January 7, 2005.

#### AMENDMENT TO CLAIMS

Claim 4. (Original)

Art Unit: 2161

The method of claim 3 wherein for each leaf node a purity value is determined, said purity value measuring the <u>a</u> degree of conformity of an associated leaf record set with respect to a <u>said</u> leaf label of said leaf node.

Page 3

## Claim 5. (Original)

The method of claim 4 wherein said purity value is based on the <u>a</u> percentage of the <u>a</u> number of records of said leaf record set not coinciding with said leaf label.

# Claim 18. (Currently amended)

A <u>computer</u> system for <del>automatically</del> detecting deviations in a data table comprising a plurality of records and a plurality of columns, said system comprising means for carrying out the steps of the method of claim 1.

### Allowable Subject Matter

Claims 1-20 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance:

Claim 1 is allowable because the prior art of record or that encountered in searching for the invention, fails to disclose or suggest a computerized method of detecting deviations in a data table by calculating a classification tree with respect to a classification column and selecting records that evaluate to true based on all predicates from a leaf record set but do not represent an expected value thus determining from a leaf record set all records deviating with respect to the classification column, as claimed in addition to the other claim provisions.

The prior art of record and not relied upon is considered pertinent to applicant's disclosure. The following patents are cited to illustrate the state of art with respect to classification trees and deviations:

- U.S. Patent No. 6,226,620 of Oon
- U.S. Patent No. 6,230,151 of Agrawal et al.
- U.S. Patent No. 6,321,217 of Maeda et al.
- U.S. Patent No.6,687,691 of Agrawal et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marc R Filipczyk whose telephone number is (571) 272-4019. The examiner can normally be reached on Mon-Fri, 8:30am-5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Safet Metjahic can be reached on (571) 272-4023. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Application/Control Number: 09/930,921

Art Unit: 2161

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR

system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
